***Allowable Subject Matter***

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:  
  
Applicant's argument pages 1 filed on 12-07-2006 and pages 5-7 filed on 7/23/06 is convincing. As argued by the applicant on page 1 filed on 12-07-2006 and pages 5-7 filed on 7/23/06, the uniquely distinct features liquid crystal display, comprising: a selection device having a first input terminal coupled to the power device, a first output terminal coupled to the scan driver, a second output terminal, and a first control terminal, wherein when the first control terminal receives the erase signal, and the selection device couples the first input terminal to the second output terminal; and a current limiting device, coupled between the second output terminal and the scan driver, limiting instantaneous current from the power device when the scan driver simultaneously outputs all the scan signals is not shown or suggested by the prior arts Nakai et al and Yano et al.

The closest prior art, Nakai et al and Yano et al, either singularly or in combination, fail to anticipate or render the above bold and underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
